EXECUTIVE PROFILE

Senior Software Engineer and Team Lead with 8+ years of experience designing scalable backend systems, distributed architectures, and cloud-native platforms in enterprise environments. Currently leading a critical enterprise data warehouse migration from legacy Hadoop infrastructure to AWS and Snowflake architecture. Strong expertise in microservices, event-driven systems, DevOps automation, and cross-functional technical leadership. Pursuing a Master's in AI Development to integrate intelligent systems into modern cloud and data platforms.

CORE COMPETENCIES

Backend & Architecture: Python (FastAPI), Java (Spring Boot), Node.js, REST APIs, Microservices, Event-Driven Architecture (Kafka, Pulsar, AWS SQS)

Data & Cloud Platforms: Hadoop, HDFS, Sqoop, Snowflake, AWS, Data Ingestion (JDBC, APIs, Kafka, Flat Files)

DevOps & Infrastructure: Docker, Kubernetes, Terraform (IaC), GitHub Actions (CI/CD), Datadog

Frontend: React, TypeScript, Redux Toolkit, Vite, Ant Design

PROFESSIONAL EXPERIENCE

Cargill — Team Lead / Senior Software Engineer (2020–Present; Team Lead since Dec 2025)

- Lead and mentor a team of 4 engineers delivering enterprise backend and data platform solutions.
- Coordinate migration from legacy Hadoop/HDFS warehouse to AWS + Snowflake architecture.
- Migrate source systems including JDBC databases, Kafka streams, APIs, and flat files.
- Design scalable microservices and ingestion pipelines for batch and streaming workloads.
- Implement CI/CD pipelines and manage infrastructure using Terraform.

Cargill — Application Development Analyst (2017–2020)

- Delivered backend and integration solutions supporting global enterprise operations.

Route Miner — Application Developer (2016–2017)

- Developed mobile and backend applications with automated testing and performance optimizations.

EDUCATION

Master's in AI Development (In Progress, 2025–Present) — BIG School (Spain)

Bachelor's Degree in Information Systems Engineering — Universidad Nacional (2017)

CERTIFICATIONS

React.js & Redux (2025) | React with Vite & TailwindCSS (2025) | DataOps Fundamentals (2022) | Snowflake Essentials (2022) | Dell Boomi Certifications (2018–2019)
